WIRT URGES PLAN ON CITY CHURCHES

Author Sees No Danger of Sectarianism in Religious Instruction.

FEATURE A SUCCESS IN SCHOOLS OF GARY

Speaking in St. Paul's, He Says Children Take Work as a Matter of Fact.

"Whether the churches are willing to take advantage of the opportunity of having school children attend week day classes in religious study is of no in terest to me," said Dr. William A. Wirt, Superintendent of Schools in Gary. Ind., last night to the congregation of St. Paul's Methodist Episcopal Church, at West End Avenue and

Church, at West End Avenue and Eighty-sixth Street.

"I do, however, think it is of vital importance that the churches should take this opportunity, presented by the Gary system, of handling the congested schools of this city to train the young. By this method, which has been in operation in Gary for about twelve account as are enabled to give religious training to more children than they can us the weekly Sunday school. I do not fear sectationism.

"The children have come to regard it as a matter-of-fact proposition, as a regular every day occurrence. In fact,

regular every day occurrence. In fact, they would be surprised to find that there were other children in other cities who had no religious instruction during week days. All this work, which is letter men and women, is done during the extra hours not used in the office of the Wirt plan, should New York of To-morrow," in which he devotes much space to Gary:

"It is over-industrialism that makes the vote necessary for women!

"And because America suffers from over-industrialism American women need the ballot."

This is the opinion of Princess Luzation of the second authorities who have critically the seadown work in the Gary of the seadown work in the seadown work

What Is the Gary Plan?

By ALICE BARROWS FERNANDEZ

Tribune readers will find in this department a clear and authoritative account of the Wirt school system, proposed for this city. Questions of parents and teachers will be gladly answered. The department will appear on Mondays and Thursdays

day.

It gives all children just as much academic work as the traditional school, but by lengthening the school day it gives time for practical shop that he wanted during the day it gives time for practical shop the school of the school of

work, science, drawing, music, auditorium and play for all children.

What the Wirt Plan Means.

To every parent—a chance to give his child the enriched educational op- learned, and now I've got them. You see, no one complained that he liked to pla baseball too much, because he had better schools for less cost.

"Isn't the Wirt plan an experiment, and should we proceed further with it

defining week days. All this work, which is a letter men and women, is done during the extra hours not used in the desired men and women and women of his church as the Wirr plan, snould New York adopt it until it has been tried out?"

These are some of the questions of the men and women of his church as Methodist Episcopal church, had become members of the congregation become members of the congregation become members of the congregation that detectional authorities for they were twenty years old. In view of this I think it important that the churches co-operate with this schools and I do not think it proposed that the state should take the children at a time in the morning before anything can be done for them and hold them until an hour when nobody also have not not yet as an opportunity.

A question all an assertion, and a question all unconsciously ransforms itself into an assertion, and yet have not proposed change to the youth of the country and trained them in the way they should think. Now only about twenty-five per cent of our children attend Sunday school class a senting capacity for 3,000 children the school so are only in a position to give each child two hours and a bill instruction a day for the entire year, days play, academic instruction and manual training."
